

Diaceutics grows its lab network and data capabilities in Europe

New data will deliver enhanced insights to Diaceutics' customers and drive new sales opportunities across multiple geographies

Belfast and London, 27 February 2024 - Diaceutics PLC (AIM: DXRX), a leading technology and solutions provider to the pharma and biotech industry, is pleased to announce it has expanded its data supply network which will significantly increase the number of labs through which Diaceutics is sourcing data in Europe and will broaden the Company's European data coverage. This data will accelerate the rollout of the DxRx Signal product in key EU markets of Germany, France, Italy, Spain and the United Kingdom (DxRx Signal has only previously been offered by Diaceutics in the US market).

The increased data is now available to Diaceutics customers enabling them to find more patients eligible for their new and innovative therapies.

Jordan Clark, Chief Data Officer of Diaceutics commented: *"This data will further endorse our position as a leading provider of data to biotech and pharma companies as they commercialize their products, find and deliver therapies to patients across multiple geographies."*

This announcement contains inside information for the purposes of Article 7 of Regulation (EU) 596/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("MAR"), and is disclosed in accordance with the Company's obligations under Article 17 of MAR. The person responsible for making this announcement on behalf of the Company is Nick Roberts, Chief Financial Officer.
